Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 24 February 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1,2,37 and 38 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1, 2, 37 and 38 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
- Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
- 11) ☐ The proposed drawing correction filed on _____ is: a) ☐ approved b) ☐ disapproved by the Examiner.
- If approved, corrected drawings are required in reply to this Office action.
- 12) ☐ The oath or declaration is objected to by the Examiner.

Priority under 35 U.S.C. §§ 119 and 120

- 13) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.

FINAL ACTION

Applicant's amendment of 2-24-03 has been fully considered. Although the amended claim 1 has overcome the previous rejection of 112/2nd paragraph, it has not overcome the previous rejection of 112/1st paragraph (enablement), and double patenting. Thus, the enablement and the double patenting rejections are maintained herein.

Claims 1, 2, 37 and 38 are still pending.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. **Enablement:** Claims 1, 2, 37, and 38 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant argued that the genus is described on page 14, and thus is enabled for the claimed methods. Such a description meets the requirement for "Written Description", but does not meet the requirement for enablement.

Claim 1 recites "a method of treating a disorder induced or facilitated by CRF".

However, the specification does not indicate the activity of the claimed compounds. On pages 185-187, the specification only outlines bioassay methods for *in-vitro*, and *in-vivo* tests.

However, it appears that no compound has been tested for CRF activity. Furthermore, page 25 excludes several groups of compounds. Thus, it seems that the *in-vitro*, and *in-vivo* tests are not applicable to the excluded compounds.

It is noted that a dosage is given on pages 188 and 189. However, said dosage is a general therapeutic index for the compounds. Said dosage does not reflect the activity of the compounds on CRF. The mere disclosure of bioassays in general does not involve the claimed compounds in any quantitative manner or measurement. Another words, applicants have not correlate bioassays to the presently claimed compounds.

Thus, the specification does not provide enablement for the claimed methods.

Double Patenting

The **nonstatutory double patenting** rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 1624

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 37 and 38 remain rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 28 and 29 of U.S. Patent No. 6,191,131. Although the conflicting claims are not identical, they are not patentably distinct from each other because the methods of treating various disorders recited in the instant claims 37 and 38 overlap with the methods of treatment recited in claims 28 and 29 of US'131. In particular, the overlapping subject matter is related to the method of treating anxiety and/or depression using compounds of the instant formula (I) with R^3 as heterocyclyl, or compounds of formula (I) in US'131 with R^3 as $-NR^6R^7$ forming a heterocycle such as: piperidine, pyrrolidine, piperazine, morpholine, thiomorpholine, etc. The method of treating other disorders in the instant claims 37 and 38 is not overlapped with claims 28 and 29 of US'131.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1624

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
